DETAILED ACTION

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 13 recite the limitation "a hydrophobic group on the surface" however given that there is a lack of antecedent basis for the term "the surface", it is unclear whether the hydrophobic group is on the surface of the sol or the inorganic oxide or the coating.
- 3. Claim 4 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 4 recites a parenthetic expression at lines 2-3 and 5 however it is unclear whether the limitation within the parenthesis are meant to be encompassed by the claim.

Allowable Subject Matter

4. Claims 1-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action. The following is a statement of reasons for the indication of allowable subject matter: the closest prior art JP9291227 teaches a primer coating composition useful for priming the surface between an organic glass and a silicone cured hardcoat layer wherein the primer coating comprises a urethane elastomer and metal oxide fine particles surface treated with organoalkoxysilane hydrolyzate (Abstract), however JP'227 does not teach or render obvious that the urethane elastomer is a self-emulsifiable emulsion of a linear polyurethane having a pendant carboxylic
